

HOT GLASS VACUUM PRESSES

HOT PRESS

Based on our unique, patented heating technology, Hot Glass Vacuum Presses set the standard for excellence in mounting, heatsealing and canvas bonding. The top panel of the press is comprised of two sheets of reinforced tempered glass. The inner surface of the lower sheet has an invisible conductive film embedded in it. A controlled electric current is passed through this conductive film, creating a highly efficient heating system. A sensor on the glass monitors and controls the temperature by means of a digital thermostat. The result is an even distribution of heat across the work surface, assuring the ultimate in mounting and laminating performance.

The transparent top panel provides a high level of operator confidence, as work can be viewed throughout most bonding processes. The glass is extremely smooth and scratch resistant.

The Hot Glass Vacuum Press handles a wide range of presentation materials - from foam board and wood to photos, art prints and delicate fabrics. All models feature:

AUTOMATIC ELECTRONIC TIMER

With manual override switch.

ADJUSTABLE TEMPERATURE CONTROL

So that all kinds of artwork can be mounted – even those that may be subject to damage by heat.

ADJUSTABLE TIMER CONTROL

When processing large volumes of work, the programmable timer can be set to the minimum time required for each batch of work, increasing productivity.

ADJUSTABLE PRESSURE CONTROL

Minimises even heavy creases and wrinkles – while ensuring that delicate items such as foam board and embossed prints are not crushed.

DEDICATED VACUUM PUMP

The factory-matched vacuum pump ensures that pressure is never pulled too quickly or slowly.

HOT GLASS VACUUM PRESSES

Model	HGP220	HGP260	HGP360	HGP560
Weight	49 kgs	72 kgs	111 kgs	210 kgs
Width	720mm	975mm	1194mm	1422mm
Depth	1040mm	1300mm	1800mm	2615mm
Height	160mm	160mm	160mm	950mm inc. stand
Time to vacuum (secs)	20	20	30	30
Time to Temperature (mins)	12	12	12	15
Working dimension	635 x 940mm	890 x 1195mm	1095 x 1705mm	1276 x 2496mm
Packed Weights and Dimensions				
Weight	67 kgs	90 kgs	145 kgs	447 kgs
Width	1150mm	1400mm	1920mm	2800mm
Depth	900 mm	1150 mm	1360 mm	1620 mm
Height	320 mm	320 mm	320 mm	620 mm
Voltage	230 V 50/60 Hz	230 V 50/60 Hz	230 V 50/60 Hz	230 V 50/60 Hz
Wattage	2300 W	2500 W	4200 W	5750 W
Current (amps)	10	11	18	25
Code	S6010	S6030	S6050	S6064

Vacuum Press Stands	HGP220	HGP260	HGP360	HGP560
Code	S6125	S6130	S6135	Stand included
