Max board thickness	3/8" (10mm)

Unit weight & dimensions

Weight	53lbs (24kgs)
Width	33.25" (845mm)
Depth	12.20" (310mm)
Height	12.28" (312mm)
Maximum speed	9fpm / 2.8 mpm

Packed weight & dimensions

Weight	58.5lbs (26.5 kgs)
Width	37.5" (950mm)
Depth	15" (380mm)
Height	15" (380mm)
Power	110 volt

The JM26 is a 26.5" motorized table top laminator operated by a foot switch, leaving both hands free to handle the work being processed. It's designed for mounting and laminating inkjet outputs - but it is equally capable of handling photographic or any printed media. Ideal for permanently mounting onto card, foam board, MDF or rigid PVC board, handling board thicknesses of up to 10mm. Because it delivers both speed and flexibility for mounting and laminating applications, this variable-speed laminator is ideal for picture framers and photographers. Includes supply shaft.

Note - There is no unwind shaft on this machine.
