

Professional Finishing Solutions

Arctic Titan

Pressure Sensitive Solutions

ARCTIC™ TITAN I65

The Arctic Titan I65 is the coolest member of the GBC color finishing line. It is designed to protect and enhance a wide variety of inkjet prints that are sensitive to heat and cannot be finished using thermal films. The Arctic Titan can laminate and mount prints up to 61" wide using pressure-sensitive film and foam boards. Production level speeds allow you to finish prints quickly and easily. Use with the GBC Arctic PSA line of films and see how "cool" your prints can be!

ARCTIC TITAN I65 FEATURES

EASY TO USE

- Convenient motor-driven rewind for release liner, with brake adjustment.
- Roller gap adjusts up to 1/2" (12.7 mm) for mounting.
- Adjustable speed for operator comfort.
- Foot pedal allows hands-free operation.
- Stand rolls easily for maximum mobility.
- Print baskets catch output and store film.
- Reversible motor clears feed jams.
- 1 3/8" (35 mm) diameter supply shaft to reduce flex.

APPLICATIONS:

- Photo Murals
- Window Decaling
- Graphic Mounting
- Trade Show Displays
- Floor Graphics
- Banners
